

Welcome To Synergy

Proper skin care begins with knowledge. At Synergy Clinical Skincare it is my goal to educate you and develop a strategy for the improvement of your complexion.

Most common skin conditions include Acne Simplex and Vulgaris, Milia, Comedones, tissue dehydration, and intrinsic and environmental aging. These conditions can range from mild to severe and are often influenced by genetics, climate and skin care habits. Since skin conditions vary with each individual an accurate analysis of the skin is necessary in determining the most beneficial action to take to correct these conditions and maintain a healthy skin.

Professional skin care treatments, along with a good home care regimen, are essential in promoting optimal skin care. At Synergy Clinical SkinCare we dispense the finest products available for professional & home use. Recommendations for your home care will be made to optimize the performance of your treatment and produce measurable results.

In an effort to provide you with the highest quality of service, we research the most current techniques & ingredients available in an effort to bring our valued clients the latest, most effective skin care procedures.

Our treatments are carried out in a most sterile & professional manner as we deliver the most effective treatment possible in a positive, relaxing environment. Acquiring & maintaining a healthy, youthful complexion demands a commitment from your Aesthetician and you. We look forward to working together to establish a skin care program which enables us to meet your expectations.

SKIN REJUVENATION

Microdermabrasion 125.00, Series 600.00

Known as the “lunch time peel” and is a most effective modality for diminishing fine lines, brown spots, acne, & improving firmness of skin. Leaves skin youthful & glowing! No down time.

O2 Intraceuticals Facial 150.00, Series 810.00

Find out why famous beauties like Madonna, Heather Locklear, & Donatella Versace can't live without this rejuvenating infusion! Skin is infused with a pharmaceutical grade hyaluronic acid, (the internal moisture we have as babies, but lose with aging), via hyperbaric oxygen pressure, resulting in ultimate renewal of skin! Immediate results are visible & improve dramatically with a series of six.

Microderm & O2 Rejuvenation 190.00

Maximize your skin's potential with this ultimate combination treatment! Microdermabrasion paves the way allowing the skin to be hyperbarically saturated with hydrating & revitalizing neutraceuticals. Results are immediate, noticeable, and lasting!

Synergy Firming & Lightning Facial 95.00

Firm & Clarify sagging, pigmented skin with the most advanced ingredients: peptide technology & a 25% Glycolic solution, combined to strengthen & firm the collagen/elastin structure while diminishing wrinkles & evening skin's tone.

Epicuren Hot Cinnamon Facial 115.00

A 'mini face lift', this treatment utilizes the latest enzymes technology to firm, tone, & rejuvenate sluggish, sagging skin, leaving skin radiant, firm, & youthful!

Revitalizing Vitamin Repair Facial 110.00

Vitamin-rich ingredients restore optimum skin conditions, counteracting free radical molecules whose aggressive attack can cause slackening & wrinkle formation. Excellent for environmentally stressed skin, this treatment results in a freshly toned & clear complexion.

Glycolic Acid Series (six treatments) 330.00

A moderate peel, ideal for improving fine lines, acne, & pigmentation spots. This series does not include extractions.

Synergy Facial 70.00

Revitalize Your Complexion! Our signature facial addresses your skin's deficiencies and balances the skin. Includes deep pore cleansing, enzyme exfoliation, extractions, relaxing face, neck & decollete massage, therapeutic mask, & hand treatment. Approximately 60 minutes.

Spa Facial 100.00

De-stress your spirit & revitalize your complexion simultaneously with the Spa Facial. Same as the Deep Cleansing Facial with the addition of a relaxing 15 minute back massage & foot reflexology. Approximately 90 minutes.

Acne Clearing Facial 85.00

Eliminate clogged pores & clear blemishes! Professional desincrustating ingredients & steam emulsify comedones to aid in the extraction of follicular debris, lymphatic drainage is performed to flush away toxins. A high-frequency current is used to discourage bacterial growth, followed by a healing, sedating mask. A light moisturizer is applied to protect, purify, and heal.

Purifying Back Facial 75.00

Excellent skin care for those difficult-to-reach areas. Skin on back & shoulders is cleansed & exfoliated while steam opens pores to remove help extract deeper impurities. The finishing touch is an anti-bacterial mask & an application of purifying lotion.

Fitness Facial for Men 70.00

Men's skin suffers daily from shaving, environmental conditions, sun damage & free radicals. This advanced deep pore facial includes cleansing followed by steam, exfoliation, extractions, and a custom masque to help rebalance and revitalize the skin.

Glycolic Facial 80.00

A glycolic acid treatment is added to your deep pore-cleansing facial to smooth complexion & rebuild cellular layers for a radiant, clean skin.

Results are fresh, clean, & calm skin!

LASER REJUVENATION AND LASER HAIR REMOVAL

All laser services at Synergy are performed by Christy Farrell, R.N. utilizing the most advanced laser technology, the Cutera, known to be one of the newest lasers that reduce discomfort commonly associated with laser treatments.

All laser services are carried out under the direction of plastic and reconstructive surgeon, Dr. Giammanco of Newport Beach, CA.

Photo Rejuvenation

The most advanced and safest laser treatment for anti-aging skin rejuvenation. This pain-free, no down time treatment softens and removes fine lines, redness, rosacea, facial and spider veins and acne scars.

Clinical trials have shown an increase in natural collagen levels of up to 85%, resulting in a smoother tone and texture.

Treatments are recommended in a series of 4-6 sessions, 4 weeks apart for optimal results.

Photo Facial

This treatment is available to treat many different problem areas where pigmentation is a concern: face, décolleté, hands, arms, etc.

The result is more balanced pigmentation and removal or reduction in pigmented spots. Multiple treatments are sometimes required for optimal results.

Laser Hair Removal is an FDA approved method of permanently removing unwanted hair. The destruction of the hair containing follicle is achieved when the laser emits a gentle beam of light that travels along the hair to the root. The hair is immediately disabled and generally sheds within approximately 10 days. Since hair grows in cycles or stages, 6 treatments are typically necessary to target each cycle of growth. The end results is smooth, hair free skin eliminating the need to shave or wax!

NOVALASH EYELASH EXTENSIONS

This exciting technique will add volume and depth to your lashes, while allowing you to swim, bathe, & exercise looking like your wearing mascara.

Individual synthetic lashes are applied to each individual lash creating a natural and beautiful extension to your own lashes. Novalash lashes come in variety of lengths so you can achieve a natural or dramatic look.

The procedure is performed in 60 to 90 minutes and the lashes will last the length of your lash cycle. When you shed your natural lash, the synthetic falls off with it. Fill-ins are recommended every 3-4 weeks.

To learn more about Novalash you can visit their website at [**www.lashextensions.com**](http://www.lashextensions.com)

WHY CHOOSE NOVALASH?

NOVALASH IS:

THE ONLY USP (US Pharmaceutical Grade) PRODUCT, SURGICAL GRADE GLUE
